Amendment dated September 16, 2005

Reply to Office Action of June 20, 2005

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

Claim 1 (previously presented): In a computer system having a user interface, including a

display and a selection device, a method of displaying an electronic document, the method

comprising the steps of:

displaying at least a portion of the electronic document to a user as an immersive reading

page, the immersive reading page mimicing a printed paper page;

associating navigational functionality with a page number of the immersive reading page,

the page number having a corresponding interactive region; and

displaying another immersive reading page of the electronic document in response to the

user selecting the interactive region corresponding to the page number of the immersive reading

page, wherein

the navigational functionality associated with the page number is transparent to the user

prior to the user selecting the interactive region corresponding to the page number of the

immersive reading page.

Claims 2-3 (canceled)

Claim 4 (original): The method of claim 1, further comprising the step of invoking a training

mode for teaching the association to a user.

Claims 5-8 (canceled)

Claim 9 (previously presented): A computer-readable medium having stored thereon computer-

executable instructions for performing a method of displaying an electronic document, the

method comprising the steps of:

displaying at least a portion of the electronic document to a user as an immersive reading

page, the immersive reading page mimicing a printed paper page;

Amendment dated September 16, 2005

Reply to Office Action of June 20, 2005

associating navigational functionality with a page number of the immersive reading page,

the page number having a corresponding interactive region; and

displaying another immersive reading page of the electronic document in response to the

user selecting the interactive region corresponding to the page number of the immersive reading

page, wherein

the navigational functionality associated with the page number is transparent to the user

prior to the user selecting the interactive region corresponding to the page number of the

immersive reading page.

Claims 10-11 (canceled)

Claim 12 (previously presented): The computer-readable medium of claim 9 having stored

thereon computer-executable instructions, for performing the step of invoking a training mode

for teaching the association to a user.

Claims 13-21 (canceled)

Claim 22 (previously presented): The method of claim 1, wherein the electronic document is a

book in electronic form and the immersive reading page mimics a printed paper page of a book.

Claims 23-26 [including duplicate claim 24] (canceled)

Claim 27 (previously presented): The computer-readable medium of claim 9, wherein the

electronic document is a book in electronic form and the immersive reading page mimics a

printed paper page of a book.

Claim 28 (canceled)

Claim 29 (previously presented): The method of claim 1, wherein the displaying includes

displaying only one immersive reading page at a time.

Amendment dated September 16, 2005

Reply to Office Action of June 20, 2005

Claim 30 (previously presented): The method of claim 1, further including teaching the

association to the user by providing audio indicators.

Claim 31 (previously presented): The computer-readable medium of claim 9 having stored

thereon computer-executable instructions, wherein the step of displaying includes displaying

only one immersive reading page at a time.

Claim 32 (previously presented): The computer-readable medium of claim 9 having stored

thereon computer-executable instructions, for performing the step of teaching the association to

the user by providing audio indicators.

Claim 33 (previously presented): In a computer system having a user interface, including a

display and a selection device, a method of displaying an electronic document, the method

comprising the steps of:

displaying at least a portion of the electronic document to a user as an immersive reading

page, the immersive reading page mimicing a printed paper page;

associating navigational functionality with an element of the immersive reading page, the

element having a corresponding interactive region; and

displaying another immersive reading page of the electronic document in response to the

user selecting the interactive region corresponding to the element of the immersive reading page,

wherein

the navigational functionality associated with the element is transparent to the user prior

to the user selecting the interactive region corresponding to the element of the immersive reading

page.

Claim 34 (previously presented): A computer readable medium having computer-executable

instructions stored thereon for performing the method of claim 33.

Amendment dated September 16, 2005

Reply to Office Action of June 20, 2005

Claim 35 (new): The method of claim 1, further including associating functionality with an

element of the immersive reading page, the element, being different than the page number, and

having a corresponding interactive region.

Claim 36 (new): The method of claim 35, wherein the element is a title.

Claim 37 (new): The computer-readable medium of claim 9 having stored thereon computer-

executable instructions, for performing the step of associating functionality with an element of

the immersive reading page, the element, being different than the page number, and having a

corresponding interactive region.

Claim 38 (new): The computer-readable medium of claim 37, wherein the element is a title.

Claim 39 (new): The method of claim 33, further including associating functionality with a

second element of the immersive reading page, the second element having a corresponding

interactive region.

Claim 40 (new): The method of claim 39, wherein the second element is a title.
